

Candy City

One the outside of my shop 'Candy City' it is white and on the inside it looks like jelly beans.

There is a gumball and chewing gum dispenser, a candy floss machine and cartoon toys balloons for kids.

Candy City has a soft play for kids and everyone to play in, it is made out of bouncy castles so it will be really bouncy.

It has 3 floors , sweets on floor 1, the bouncy castle/softplay on floor 2 and a beautiful cafe on floor 3.

The cafe has kind and friendly staff which serve yummy milkshakes, hot tea and last but not least, ice cream, lots of ice cream! Candy City has every flavour you can think of in the world.
