

English Activity 4. Amelia Black

My new business adventure would be a toy/sweet shop in Alnwick.

I would sell lots of craft, books,stationary, toys and sweets.

It would be of multiple colours and on three storeys high.

The first floor would sell toys, the second floor would be a sweet shop, the third would be stacked high with books, stationary, and craft materials.

I have chosen this, as this is my favourite kind of shop.

I would supply activity tables where children could sit and craft, draw or read. I would also have a little cafe where parents could sit whilst the children take part in activities or browse round the shop.

My customers would be mainly children, with their parents/grandparents - they would be spending the money!

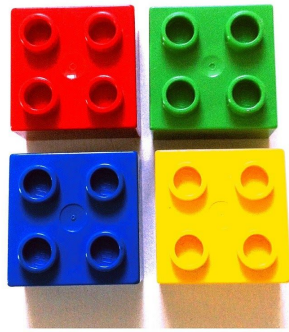

There is currently no shop like this in Alnwick.

How my sweet shop might look with a pick and mix.

Just a couple of ideas to stock in my craft shop.

The book shop, stationary shop, toy shop would definitely sell the above items!!!

It would also include a section of make your own slime!!!

This is my dream shop, I love looking in Hobby craft, WH Smiths, Waterstones, The works etc
