

# Race Equality Policy

## Principles and values of our school

### Within Swansfield Park Primary School

- We believe that everyone in our school is of equal value and should be treated fairly in life.
- We believe that everyone should have their culture and background treated positively and with respect.
- We will treat others equally, with dignity and respect and seek to promote race equality at all times.
- We are aware that people in our society are discriminated against and treated as if they are worth less than others because of their race or culture but we are determined that this will not happen in our school.
- We will identify and remove barriers in order to maximise participation and achievement of all.
- We will ensure high expectations of all.
- We will ensure a positive representation of a wide range of heritages from our community across the curriculum.

## Our commitment

### We are fully committed to:

- promoting race equality throughout the whole school;
- promoting good race relations at all times;
- challenging racial discrimination.

We fully recognise and accept the responsibilities placed on us by the Race Relations (Amendment) Act 2000 following the MacPherson Report 1999 which requires the school to promote race equality.

## Scope of policy

The Governing body expects all those associated with the school to adhere to this policy and guidelines at all times in their work within and for our school. The policy applies to all colleagues who work in the school on a paid or voluntary basis, all pupils who attend it, together with any visitors or contractors who visit the site.

## Implementing the policy

### a) Promoting race equality and good race relations

The school wishes to meet its commitment by addressing as a matter of priority those aspects of practice that have the greatest effect on our school community:

- progress, attainment and assessment
- behaviour, discipline and exclusions
- pupils' personal development and pastoral care
- teaching and learning
- admissions and attendance
- curriculum
- staff recruitment and professional development
- partnerships with parents and communities
- achievement

To achieve this a race equality audit will be carried out and used to inform an action plan. This will be based on the auditing tool, see Appendix 1

### b) Challenging racial discrimination

The MacPherson Report of the Stephen Lawrence inquiry defines a racist incident as:

*“any incident which is perceived to be racist by the victim or any other person”.*

This definition has been adopted by the County Council and the school.

The school wishes to meet its commitment by:

- challenging inappropriate behaviour and incidents of a racial nature where ever they occur in or outside school premises;
- recording incidents;
- reporting incidents to the Governing Body, parents, Education Directorate and police in an appropriate manner.

All racist incidents will be recorded and parents and governors will be informed of the nature of the incident and the action taken to deal with it.

Governing Bodies will be expected to inform the County Council, on an annual basis of the pattern and frequency of any such incidents. The purpose of the data of the County Council is to enable it to provide relevant support and training within the LEA. Individual school data will be confidential between the school and the County Council.

We are required to comply with the Local Authority procedures for the recording of racist incidents which are available at [www.culturaldiversity.org.uk](http://www.culturaldiversity.org.uk)
