

2 D Shapes

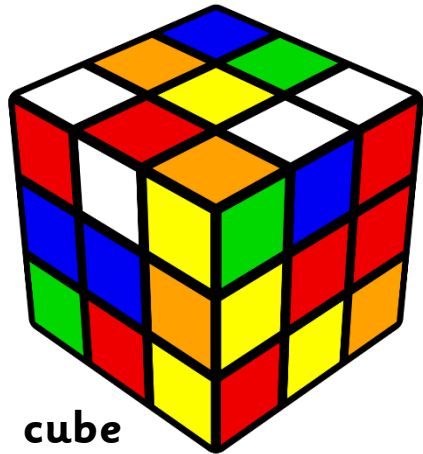

We know that these shapes are **flat**. We can count their **sides** and their **corners**. We enjoy finding these shapes in the environment and using them to make pictures and patterns.

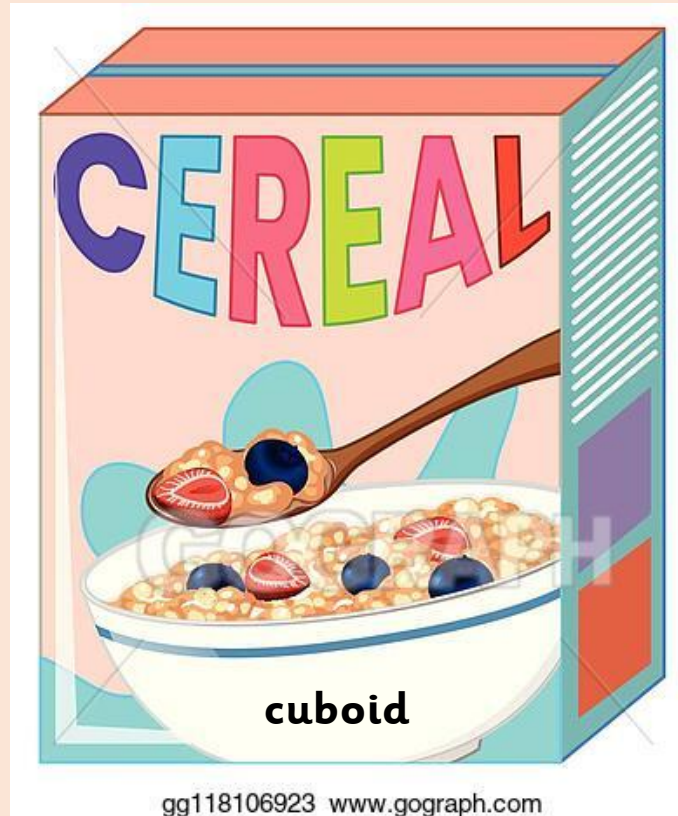

3D Shapes

We know that these shapes are **not flat**. We can look for 2D shapes on their faces and count their **faces** and **corners**.

We enjoy finding these shapes in the environment and using them to make models and towers.

cube

cuboid

cylinder

cone
