## Ditty Time!

There once was a city with no gardens anywhere. What a dull place that was! Liam loved to be outside. Even if it was raining he would push his way out his house to play.

One day, he found his way up some stairs to the old railway track.

He was shocked to find some plants trying to grow.

Hold a sentence:

"I will help your grow" said the boy.

Write a sentence of your own. Can you use the red words?
