

Monday 15th June

Sound Time

Well done for fantastic Read, Write Inc work last week. Brilliant to see you using the sounds and looking for special friends. This week we are going to focus on the different ways of making:

igh

Now read the words (watch out some of them are made up nonsense words!)

mine night chipe dright

 fright shide light

nime white smile bright

 like thigh prize

Can you write sentences using the real words?

Ditty Time!

If you like to have a fine garden you might need to spend lots of time getting things right.

You need the sun to shine its bright light and water to help things grow.

You might need to fight weeds and pests like mice.

There is no greater prize than lines of high plants like limes.

Hold a sentence:

The light needs to shine on my plants.

I have a high slide I play on at night.
