

# Oak Class Home Learning: Wednesday 10th February

## English -

1. Listen to the story of the Race of the Animals again. Note down the order of the animals to help you with your writing task.
2. Write a newspaper report telling everyone what happened during the race. Some top tips:
  - \*Write what the river and the surrounding area looked like. Was the river flowing quickly or slowly?
  - \*Describe each animal. What did they look like and how did they feel when they finished?

## Maths - Multiplication: the 2 Times Table

**Let's learn:** Watch the video and have a go at the worksheet below. If you like singing songs, here is a catchy 2x table song you might like to sing and dance to:

<https://www.youtube.com/watch?v=BGWMPqh04o4>

## **Practical Maths:**

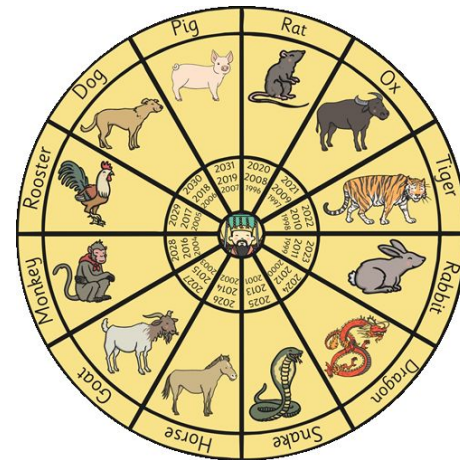

Find pairs of objects in your house like: socks, shoes, mittens, 2p pieces.  
Have a go at counting them.

## Topic - Chinese New Year story: the race!

**Task:** The Chinese Zodiac wheel shows the order the animals finished the race in. Look for the year you were born and work out which animal is your Chinese zodiac animal (I was born in the year of the snake!).

Make a poster with a drawing of your animal on, and what the animal is supposed to be like (have a look below). Can you add the Chinese symbol for your animal? Are you like your animal?

## Physical challenge - star jumps challenge!

How many star jumps can you complete in 60 seconds? Make sure you clap hands above your head and bring your feet together. Why not compete against a family member?!

## Can you beat your score from Week 2?
