

Oak Class Home Learning: Thursday 11th February

English - Invitation

Chinese people love to celebrate New Year. They give presents, have special food and have big parties. Imagine there are no Covid restrictions. Write an invitation for a Chinese New Year party. Make sure your invitation includes:

- The date, time and place where the party will happen.
- Who you are inviting.
- What you will do and eat at the party.
- Lots of colourful decoration.

Maths - Multiplication: 5 x Table

Let's learn:

Today we're going to learn and practise the 5x table. Watch the video and have a go at the worksheet below. I know you like to sing and dance so here is a link to a 5x table song:

<https://www.youtube.com/watch?v=HKOpFBXmxhY>

Practical Maths:

Ask your family if they can lend you some 5p coins.

Put them into different piles then count them by counting in fives.

Oak Class Home Learning: Thursday 11th February

Topic - Chinese New Year

There are nearly 1.4 billion people living in China - and many more Chinese people living in other countries around the world. There are many different languages spoken in China; two of the main ones are Mandarin Chinese and Cantonese. They are very different languages to English - especially when written as they use different symbols compared to the English alphabet.

Task: listen to the video, and practise saying 'Happy New Year' in Cantonese!

Maybe you could record yourself and send us a video, or give someone a call and wish them Happy New Year in Cantonese! Can you find out how to write this in Chinese too?

Optional task: can you complete the Chinese New Year wordsearch?

Physical challenge - step ups challenge!

How many times can you step up and down a step in 60 seconds? One foot at a time, no jumping! You could use the bottom step of your stairs. Or, ask your grown up to help you find something you can safely stand on without it wobbling, falling over or breaking.

Can you beat your score from Week 2?
