

Nursery Home Learning

Communication and Language

This week let's have some fun with **alliteration**! Alliteration is when a group of words begin with the same sound. See the alliteration ideas sheet attached for some ideas.

First- go on a letter hunt. Look inside and out and find 3 things that begin with the same sound. What letter will you choose?

Now we have thought about words that begin with the same sound, can you help zoe the zookeeper name her animals? She wants the names to start with the same sound as the animal. For example. Tommy tiger, Lucy lion, Harry hippo. Can you think of some names for the pandas, snakes and monkey?

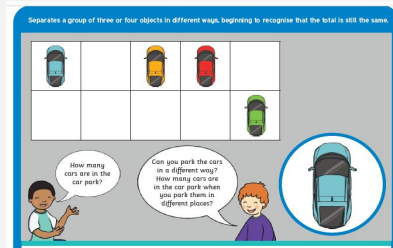

Maths

Apple class are getting really good at counting! Not just rote counting, we are getting much better at touch counting and counting out set amounts. **Our next step is to work on order irrelevance.** For example- a lot of our children can count an amount of objects, but when I change them around, (but keep the amount the same) they often don't know how many there are and need to count again. Let's work this week on reminding them that the amount remains the same unless we add or take away some objects. We will also have a go at some simple practical addition as we move through the week.

Let's warm up our brains by counting forwards and backwards to 20!

Our first challenge is to simply gather some objects/toys from around the house (up to 5 at first) and count how many you have. Move them around (don't add or take away any) and count them again? **Is the amount the same or different? Why?**

Now have a go at the car challenge attached. You can use the attached sheet and if you don't have cars, you can use stones, shells or other toys to represent them. Or. you can use the sheet as a prompt and use cars you have at home and make your own garage.

Monday

Nursery Home Learning

Topic

Last week we were thinking about the people who help to keep us safe. This week we are going to start thinking about the people in our community who keep us healthy and well. Watch this video of the well known nursery rhyme Miss Polly had a dolly - Can you join in with the words and maybe find a toy that you can nurse better as you sing the song?

<https://www.youtube.com/watch?v=vAbMi7DY1eo>

Doctors and nurses do a very important job and look after people when they are unwell. Can you do some research and find out what the jobs of doctors and nurses are?

In the nursery rhyme they called for a doctor to come quick with his bag and his hat...

1. Can you set up your own doctors surgery or hospital at home for your teddies or superheroes? Watch Miss Freeman's video as she talks about what things you might find in a hospital to help people who are sick.
2. Can you craft your own medical bag - what kind of equipment would this bag need to contain?
3. Can you make a doctor or nurse hat to use in your hospital so that people can identify what your job is?

Today's Physical Challenge!

Your physical job for this week is to complete a daily mile either running or quickly walking!

In order for us to stay well and not get poorly like Miss Polly's dolly, we need to keep our bodies fit by exercising.

Can you time how long it takes you to complete your mile each day?

Day 1 And finally...

We'd love to see what you've done today. Upload some pictures to your child's school 360 journal. Don't forget to email if you have any questions or concerns.
