

Goodnight Mister Tom

Chapter 16- The search

Learning Objectives

In this lesson you will:

- Read chapter 9 of the book.
- Identify adverbs in the text.

In the English language different types of words do different jobs. These types of words are called parts of speech.

Can you remember these 4 parts of speech:

nouns: name people, places, things and ideas.

pronouns: replace nouns to avoid repetition.

action verbs name actions

adjectives: modify or describe a noun or pronoun

Adverb: modifies the verb, adjective or adverb. It describes actions and describes other descriptive words.

Here is an example from the text: Tom waited patiently for a letter.

Patiently is the adverb because it describes what how Tom waited. As you read this chapter highlight/underline examples of these words.
