

Paper Plate Stethoscope

You will need:

- Paper plate
- Egg Carton
- Piece of string (or ribbon)
- Stickers (optional)
- Hole punch
- Scissors
- Pencil
- Small piece of sticky tack

What To Do:

	1 Using scissors, carefully, cut off an individual egg case.		5 Make a hole in the bottom of the egg case, by pushing a sharp pencil through the paper plate onto a small ball of sticky tack.
	2 Trim around the edges of the egg case so that it is level and neat.		6 Thread the string (or ribbon) through the hole in the paper plate and tie the end.
	3 Carefully, cut out the centre circle of your paper plate, making sure to cut a hole for your neck.		7 Thread the other end of the string (or ribbon) through the egg carton and tie a knot.
	4 Punch a hole in the centre of the paper plate, at the bottom, using a hole punch.		8 Finally, add any stickers to decorate.

Step 1

Using scissors, carefully, cut off an individual egg case.

Step 2

Trim around the edges of the egg case so that it is level and neat.

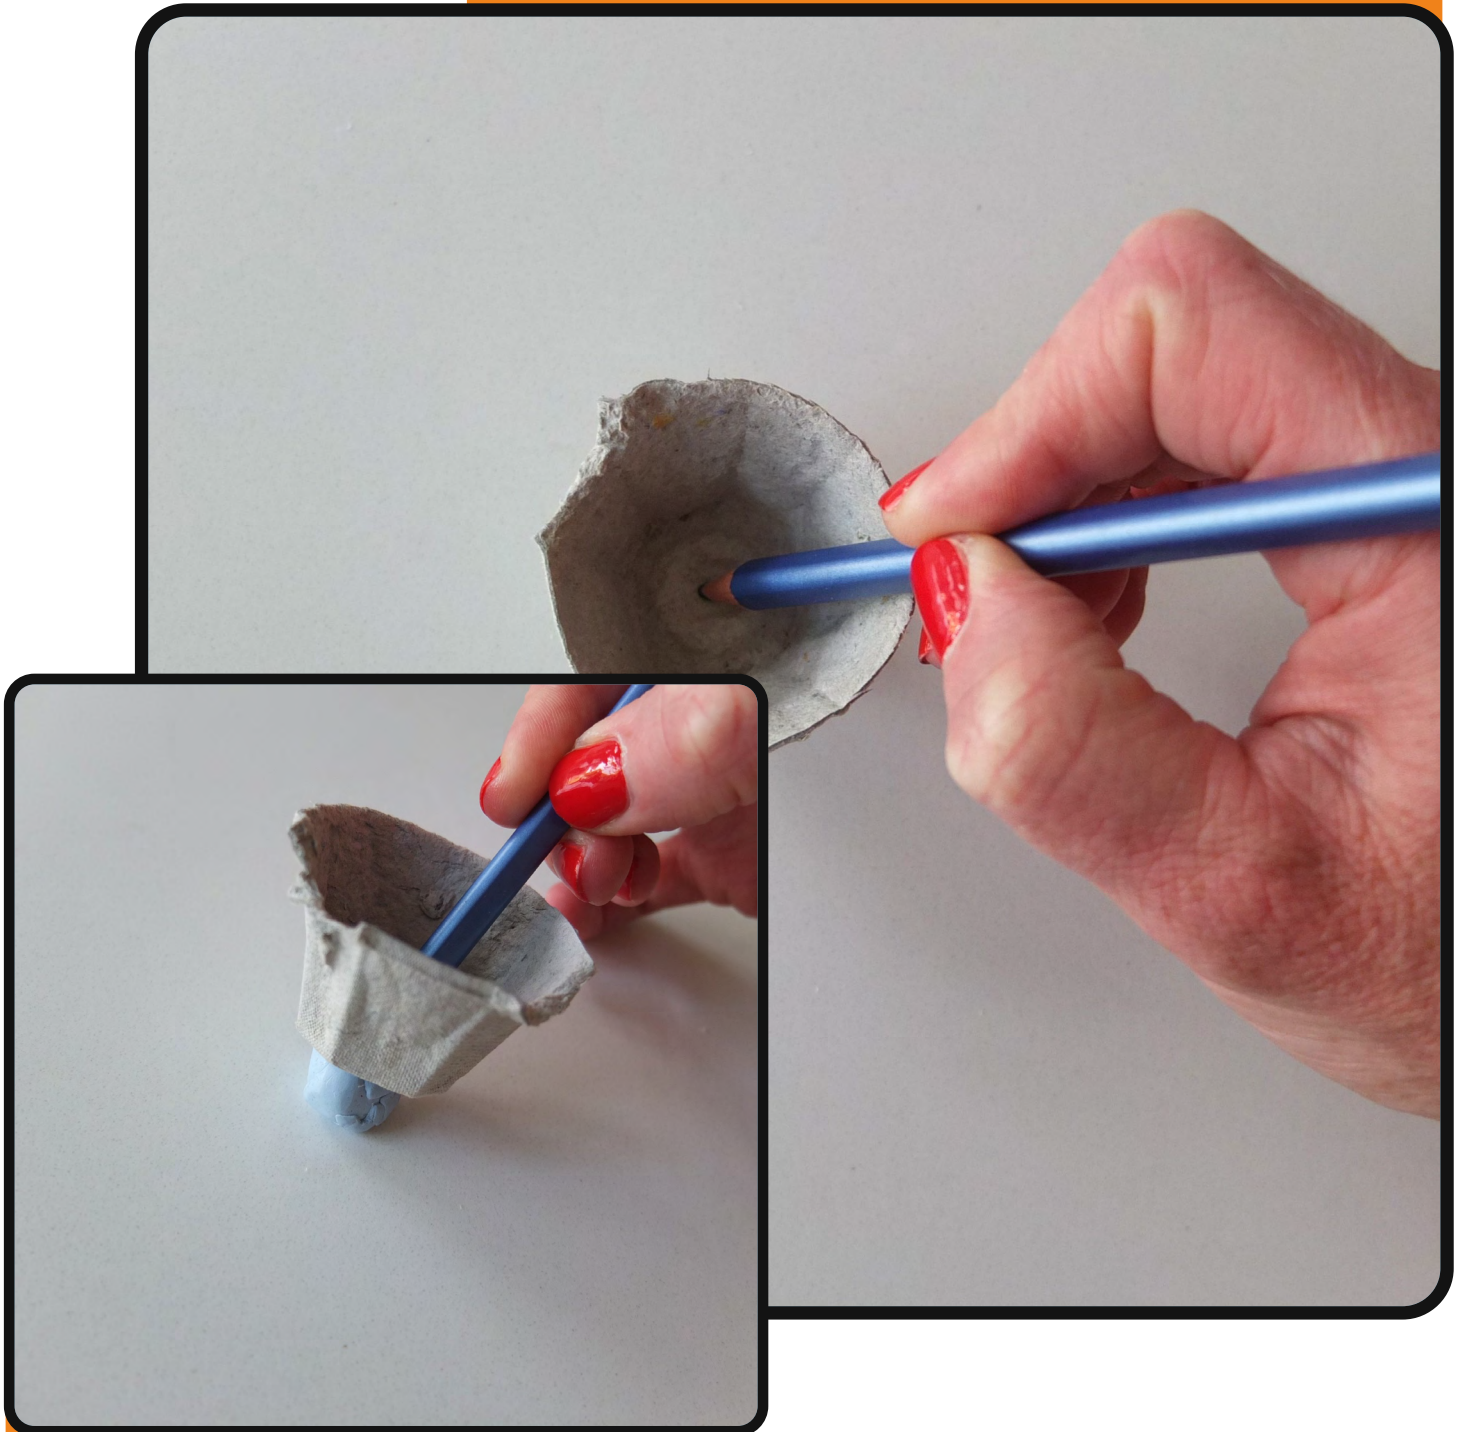

Step 3

Carefully, cut out the centre circle of your paper plate, making sure to cut a hole for your neck.

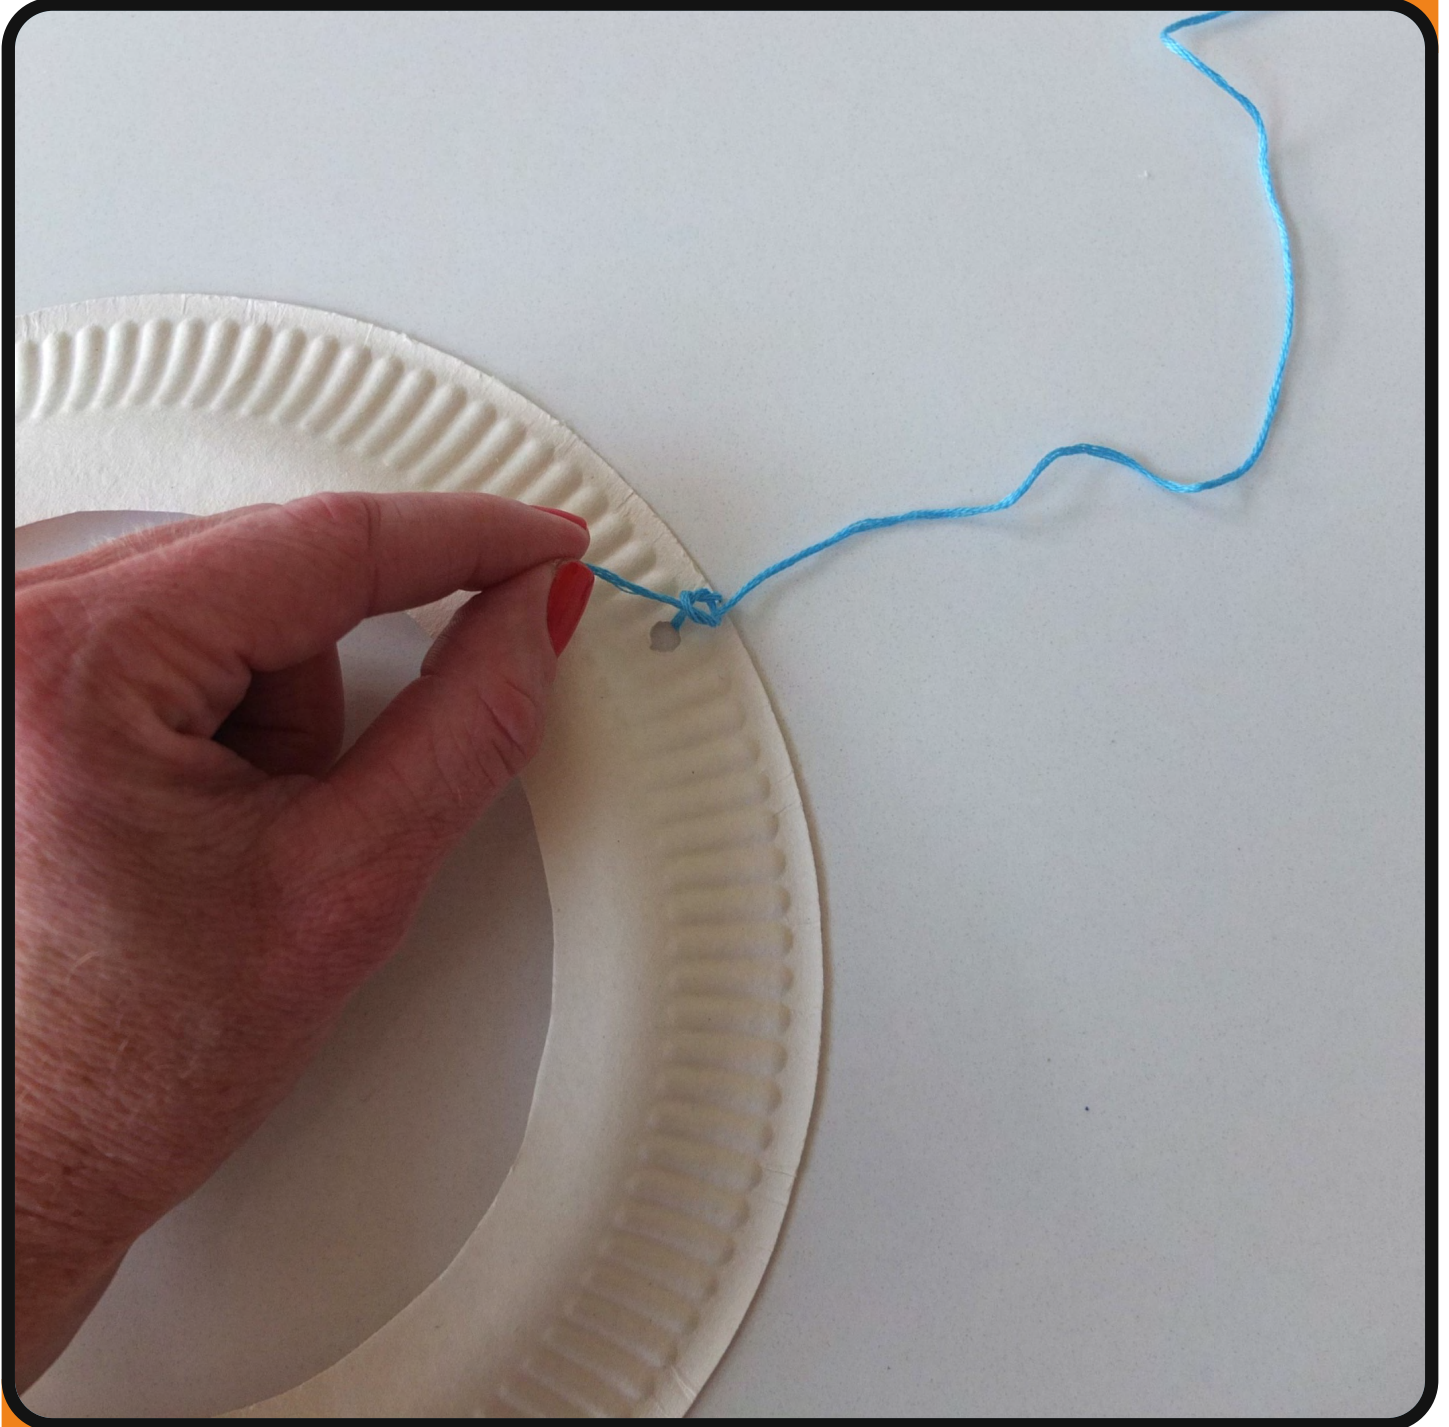

Step 4

Punch a hole in the centre of the paper plate, at the bottom, using a hole punch.

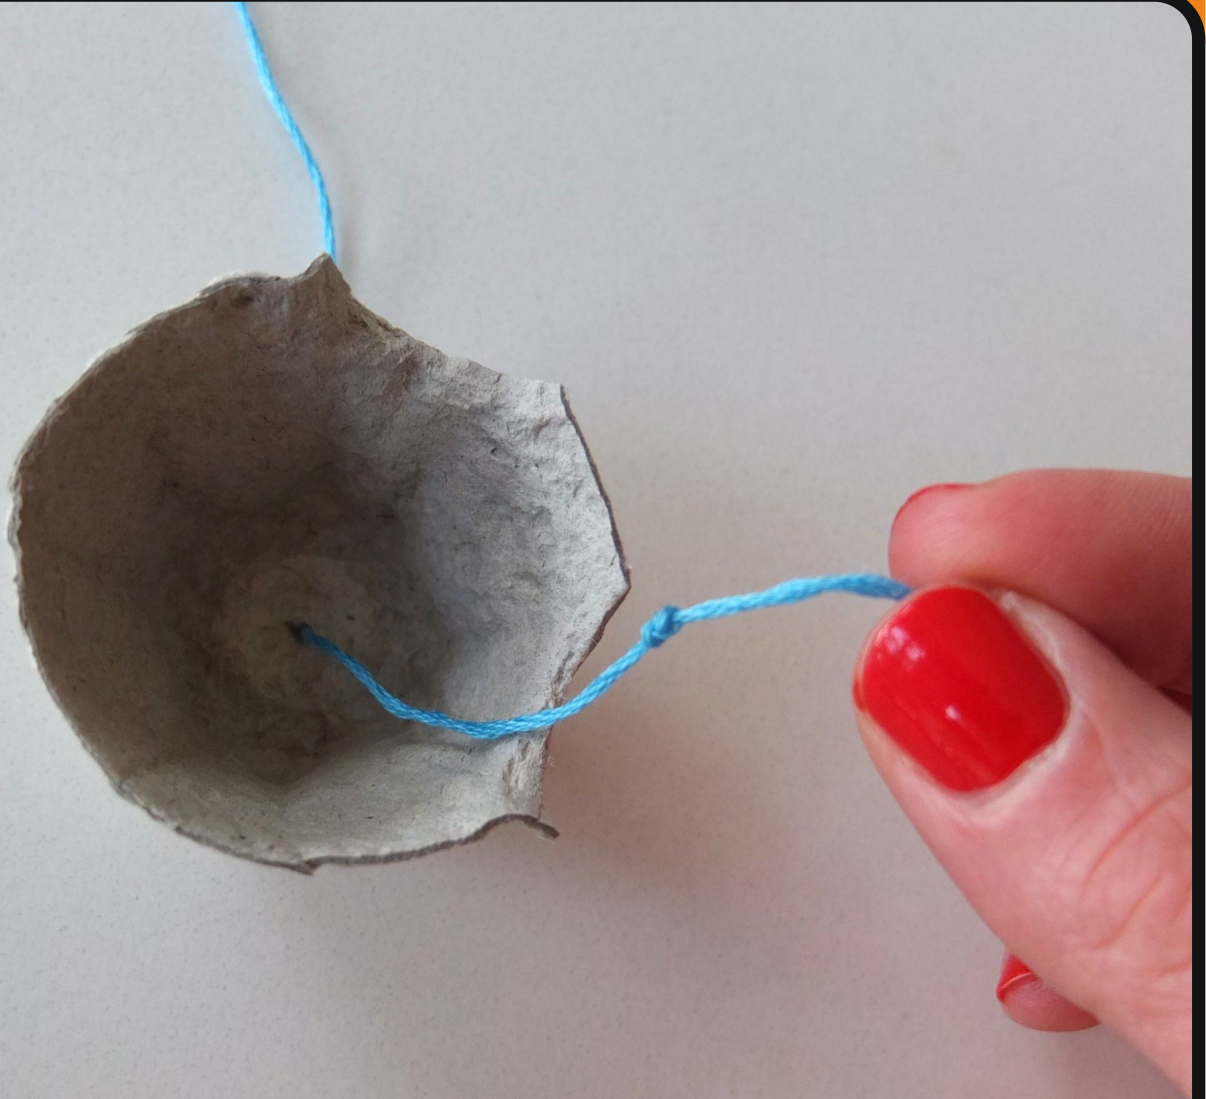

Step 5

Make a hole in the bottom of the egg case, by pushing a sharp pencil through the paper plate onto a small ball of sticky tack.

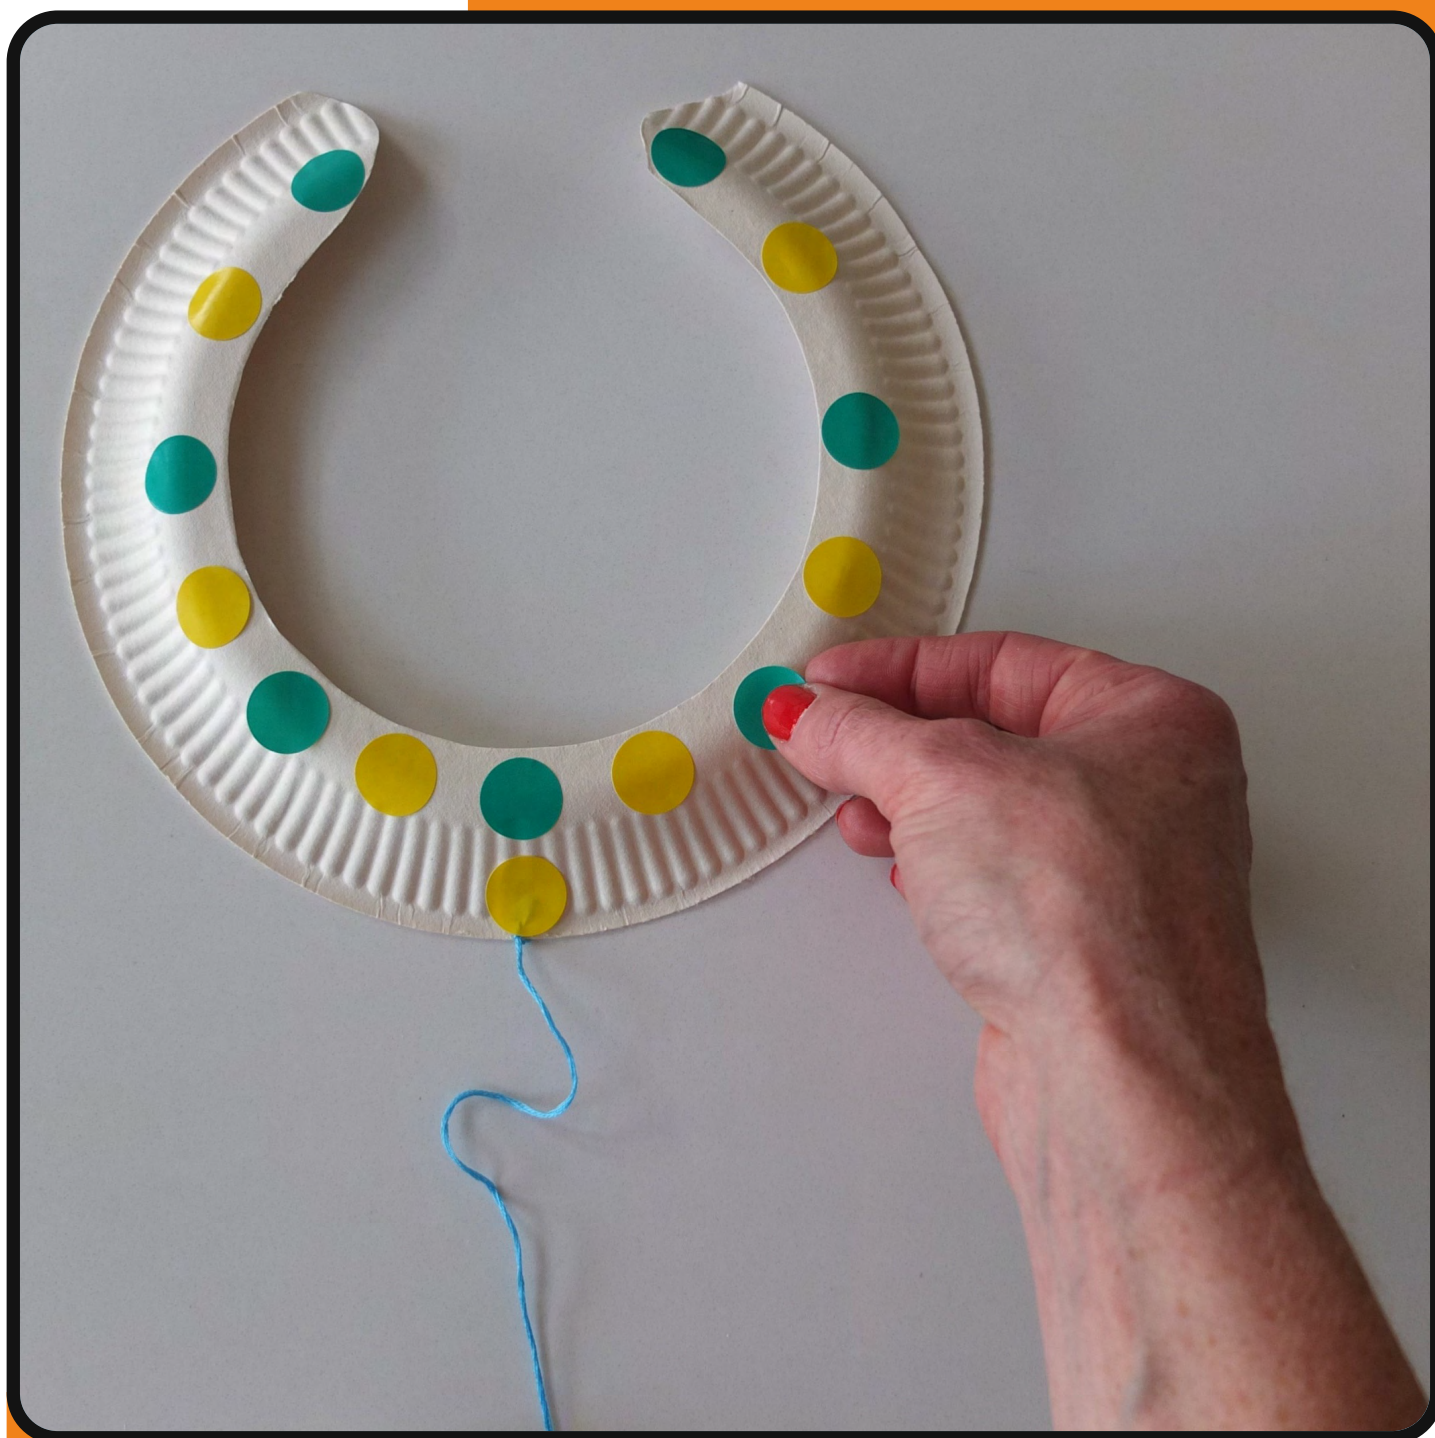

Step 6

Thread the string (or ribbon) through the hole in the paper plate and tie the end.

Step 7

Thread the other end of the string (or ribbon) through the egg carton and tie a knot.

Step 8

Finally, add any stickers to decorate.
