

Willow Class Home Learning – Day 1

English - The Lorax by Dr Zeuss

Over the next two weeks, we are going to be using the story of The Lorax to think about environmental issues and to write a persuasive letter to the Once-ler. Before we can do that, you need to find out who the Once-ler is and what he has done that is so bad. Attached below is a copy of the story but there are many online versions of the story for you to follow and listen to. One version you will find on the link below.

<https://www.youtube.com/watch?v=EdWesdMfyd4>

Read the story of the Lorax and complete these challenges:

Can you list words that rhyme with each other in the book? Try adding some of your own words that rhyme with those in the book.

Name the animals that lived amongst the Truffula trees.

What did the Once-ler make with the Truffula trees?

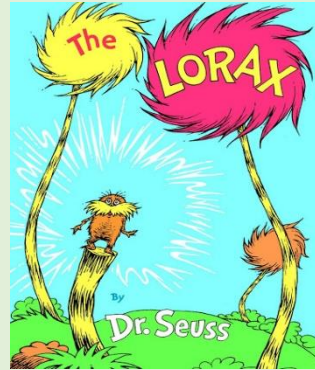

Find 3 words that the Once-ler used to describe the Lorax.

Why did the animals have to leave to find a new place to live?

What did the Once-ler's machines do to the pond?

What did the Once-ler learn?

What did you learn from the story of The Lorax?

Willow Class Home Learning – Day 1

Maths - money

Over the next 2 weeks of our maths home learning, we are going to be looking at money. Today I would like you to make sure you recognise all of the coins and notes that we use. I have attached a poster of all of the coins and notes to help you, if you have any real notes and coins at home you could have a look at those too.

Once you feel like you know what all the different coins and notes look like have a go at drawing them all.

Have a go at adding some coins together, if you don't have any real ones you could draw them and write the totals next to your drawings.

Science - Living Things and Their Habitats

Week 1

Lesson 1 ~ Grouping Living Things

We are starting a science topic today: Living Things and Their Habitats. Today we will be looking at grouping living things using Venn diagrams. Please open up the PowerPoint presentation and run through the slides. The task sheets are attached to this page, please don't worry if you are not able to print them off - drawing the Venn diagram on a piece of paper would be just as good!
