

# Reception Home Learning

## Communication language and Literacy

Read the story below:

<https://www.rspb.org.uk/globalassets/downloads/kids--schools/big-schools-birdwatch-downloads/luckyduck-story-book.pdf>

The birds in the story are all different and have things that make them special - just like us!

Can you think of something that makes you special?  
Why?

Is there anything about you that is different to some of your friends?  
Why does the birds being different make them lucky?

Can you either say a sentence explaining why you are different and have a family member record it, or attempt to write a sentence explaining what makes you special - you could even draw a self portrait!

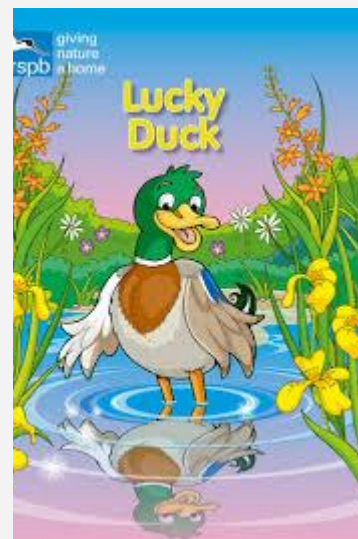

## Friday fun project

Fridays in reception usually consists of lots of child led activities.

What will you choose to do today?  
Will you  
build  
Roleplay  
Create ?

The choice is yours!

## Friday

# Reception Home Learning

## Topic

In order to survive and give birth to their young, birds have to build nests.

1. Can you use some non-fiction, either books or the internet, to find out about the different materials birds use to keep warm and keep their babies safe in their nests?
2. Can you find out the name of a baby bird?
3. To give the birds a helping hand, can you begin to create your own bird nest materials station next to your bird feeding station in the garden?

## Today's Physical Challenge!

Joe Wicks is back doing live classes at 9 this morning - can you join in?!

<https://www.youtube.com/watch?v=K6r99N3kXME>

Get outside today and on your walk, can you gather some materials to build your own bird nest? You may need to gather different sized sticks, dried grass, leaves, twigs and soil. Remember if you are using large sticks for your nest to drag them safely by your hip.

**Get building!**

## Day 1 And finally...

We'd love to see what you've done today. Upload some pictures to your child's school 360 journal. Don't forget to email if you have any questions or concerns.
