

Oak Class Home Learning: Monday 22nd February

English -

Listen to the story of "Wake-Up on Bumble Farm". Let's get our brains back into the school zone again and now we're going to do a bit of thinking about the story. You have a choice now. You can choose to:

- Read the PPT Wake Up on Bumble Farm Guided Reading and answer the questions by telling a grown up in your house the answers or writing them down.
- Or answer the questions on the worksheet below or read the questions and write the answers on paper (do as much as you can manage. You do not need to do it all).

Maths - Division - share into equal groups

Let's learn:

When we share objects or numbers we call this division. Watch my video below to get the idea and have a go at the worksheet.

Practical Maths:

Get 12 objects like pieces of pasta or sweets and some plates. Share them between 2 plates. How many is in each group. Now try with 3, 4 and 6 plates. How many is in each group each time? Try with other amounts like 12, 15, 20 and so on.

Oak Class Home Learning: Monday 22nd February

Topic - Down on the Farm!

Welcome back and welcome to a new topic all about farms. What do you know about farms already? Unfortunately we can't visit a farm, however, I have a few friends who are farmers and they're going to help me out a bit.

Task 1: look at the Powerpoint below. Can you guess the farm animal from the sounds?

Task 2: Then have a go at the worksheet matching the footprint with the animal.

Challenge: Find out which other animals you might find on a farm. Draw their footprints and see if you can find some information about them.

Around the World Challenge

How many times can you pass the ball around your waist in 60 seconds? If you drop the ball you need to pick it up quickly and carry on. If you don't have a ball, use a rolled up pair of socks or a cuddly toy instead.

Can you beat your score from Week 3?
