

English - Let's use those adjectives!

Adjectives are great! They help our stories to be more interesting and they help our descriptions to be more accurate. Remember, adjectives are words that describe nouns. Sometimes they come before the noun like: "I have a fluffy dog" or they come after the noun like "My dog is fluffy". "Fluffy" is the adjective. Have a go at the adjective worksheet below. See if you can describe the animals. If you don't have a printer, just write your answers on paper.

Maths - Dividing by grouping

Let's learn: Watch the video and have a go at one of the worksheets below.

Practical Maths:

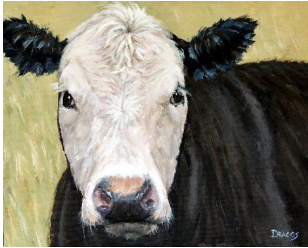

Find lots of pairs of socks. Put out 10 socks, how many pairs are there? What about 14 socks? See how many pairs you can make with different numbers of socks. Can you make pairs with 9 socks? Which other numbers does it not work with?

Topic - Animal Pictures

Debra Sisson is an American artist who paints farm animals. Let's have a go at painting like her.

Task: Choose one of these pictures to copy or do your own picture of a cow. If you have paints, have a go at painting or you can use coloured pencils, crayons or pastels instead.

Physical challenge - Squat Jumps!

How many squat jumps can you do in 60 seconds? Stand behind a line and jump forwards, perform a squat and repeat. Give yourself plenty of space! Why don't you compete against someone in your family?

Can you beat your score from Week 3?
