

You know the drill!. Here are the jobs for today and remember to get in touch if you need any support or advice about Read Write |Inc work:

1. Speed sounds - watch one of the sounds videos
2. Red words - do your own or watch one of the videos
3. Green words - watch one of the videos. Even if your child finds these hard, it's really good for them to hear the sound buttons being pressed and the words blended together.
4. Read the ditty together. If your child finds this too hard, read it to them and get them to repeat after you or track the words with you as you read.
5. Have a go at writing some green words from our ditty: **bash, leg, hug.** Extension: **dab the cut**
But - if step 5 is too tricky, draw a picture to show what's going on in the ditty and try to hear and write the initial sounds of the key green words above.
6. Over the course of the week practise the letter formation on the PDF attached

Mathematical Development

Let's have some fun with our adding up! We love numberblocks in Reception!

So, today is our last number session before the half term holiday. We thought it would be fun to play this numberblocks addition game.

<https://www.bbc.co.uk/cbeebies/puzzles/numberblocks-adding-up-quiz?collection=numbers-and-letters>

As your child plays, talk about the parts and the whole number.

Then you could have a go at making the numberblocks with bricks of your own or you can make your own paper versions.

Use these to make calculations of your own. You can then keep using these as we continue with our homeschooling.

Reception Home Learning

Topic

Over the next couple of days we are going to enjoy some activities based around a lovely story called **"The Magic Sky"** by **Lucy Richards**. So let's start off by listening to the video of Miss Freeman reading the story.

In the story Rory was so excited to see the "magic sky"! Can you remember what the magic sky really is? Yes that's right, the **Northern Lights**. Today's job is going to be all about the Northern Lights. **What are they? Where can you see them? Do they have another name?** Let's do some research and find out more. Impress someone in your family by telling them some things you have found out!

Now that you know more about the Northern Lights, let's have fun and get messy! Gather the pictures attached and pictures you have found during your research, use them as inspiration to make your own Northern Lights picture. Whilst you create, why not listen to this lovely song: <https://www.youtube.com/watch?v=-Esgm15Pd-4>

You can use chalk, paint, crayons or any media you like! Think about how you will create a blended/blurry light effect. You could use your finger to smudge the chalk or a cotton bud to mix paint together.

We can't wait to see your creations!

Today's physical challenge!

It's a Joe Wicks day today. Why don't you drop in on some of his exercises. You might not manage the full workout but we're sure you can do some. Have fun!

Day 3 And finally...

We'd love to see what you've done today. Upload some pictures to your child's school 360 journal. Don't forget to email if you have any questions or concerns.
